INTRODUCCION

Esta cuarta edición del Diccionario de Acrónimos de Información y Documentación incorpora un gran número de siglas, seleccionadas de la literatura especializada en este campo, durante el período 1990-2001 e incluye también todas aquellas siglas de Biblioteconomía, Informática, etc. que están relacionadas con la Información y la Documentación.

Como fuente básica se han utilizado las revistas, recibidas en la biblioteca del CINDOC, a partir de las cuales se confecciona la sección bibliográfica de la "Revista Española de Documentación Científica" y se actualiza la base de datos correspondiente.

Las siglas están ordenadas alfabéticamente, independientemente del país, idioma y campo.

A las siglas, cuyo idioma original no sea español, inglés, francés, italiano o portugués, se les añade, en general, la traducción en español o en inglés entre paréntesis:

ASOI **Avtomatizirovannaya Sistema Obrabotki Informatsii** (Sistema automatizado de tratamiento de la información)

La procedencia de las siglas aparece especificada, entre paréntesis, en todos aquellos casos en los que se ha podido confirmar.

LC **Library of Congress** (Estados Unidos)

Cuando la sigla corresponde a una organización que, a su vez, forma parte de un organismo superior, se incluye éste entre corchetes:

RASD **Reference and Adult Services Division** **[ALA]** (Estados Unidos)

Se utilizan también los corchetes para indicar que la sigla corresponde a una base de datos **[BD]**.

La actualización de la base de datos de acrónimos, consultable en línea, constituye una de las líneas de actividad del CINDOC, lo que permitirá la edición de nuevas versiones con las siglas más recientes.

Agradeceremos que se nos comuniquen cualquier tipo de error o laguna observados, con el fin de subsanarlos en ediciones posteriores.
