PLANT BIOLOGY AND BIOTECHNOLOGY

| | |
|--|-------|
| Can we produce tomatoes with a pinch of salt? (or how to reduce the negative impact of water and soil salinity on cultivated tomato). <i>S. Clemente, Á. Maldonado, P. Vilchez, E. Pérez, A. López, N. Jaime-Pérez, R. Olías, A. Belver</i> | Pg. 1 |
|--|-------|

| | |
|--|-------|
| Fructose signalling unbalancing and effect on <i>Arabidopsis</i> growth and the photosynthetic pigments content. <i>R. Barnes Ontiveros, M. Fiñaga Cortés, F. López Rodrigo, M. E. Noguera Vilches, C. Rodríguez Ibáñez, M. Sahrawy Barragán, A. J. Serrato Recio</i> | Pg. 8 |
|--|-------|

| | |
|---|--------|
| Functional characterization of peroxisomal protein kinases in <i>Arabidopsis</i> plants. <i>A.I. Olmedo Moya, A. Sánchez Alonso, G. Beiro Valenzuela, A.C. Villegas Buendia, A. Ollero del Peral, A. Valdivia Ruiz, K.E. Cárdenas, L.M. Sandalio, M. Rodríguez Serrano</i> | Pg. 15 |
|---|--------|

| | |
|---|--------|
| Garlic used as a preservative increases the reduced form of ascorbate in pepper fruits. <i>C. Aranda López, I. García Fernández-Gaytán, I. Hernández Quero, S. Sánchez Requena, C. Ruiz, F.J. Corpas, J.M. Palma</i> | Pg. 23 |
|---|--------|

| | |
|--|--------|
| Seedless watermelons: from the microscope to the table through the greenhouse. <i>A.J. Castro, E. García, T. M. Caballero, L. Linares, C. Pérez, A. Piñar, N. Rivas, N. V. Santillán, K. Zienkiewicz, A. Zienkiewicz, M. Jamilena, J.D. Alché</i> | Pg. 27 |
|--|--------|

MICROBIOLOGY

| | |
|--|--------|
| Single mutations in a unique gene explain the non-mucoid phenotype in soil bacteria. <i>P. Fernández-Cruz, M. J. Guerrero-Dionisio, M. Lara-García, M. Sánchez-Muñoz, J. L. Sánchez-Segovia, T. Ruiz-Rico, F. Martínez-Abarca</i> | Pg. 33 |
|--|--------|

| | |
|---|--------|
| Use of plant extracts to block bacterial biofilm formation. <i>J. A. Lizana, S. López, A. Marchal, Ú. Serrano, D. Velasco, M. Espinosa-Urgel</i> | Pg. 43 |
|---|--------|

TECHNIQUES

| | |
|---|--------|
| Polyacrylamide gel electrophoresis: a powerful tool in the food-processing sector. <i>N. Álvarez Mittelmann, E. Diago Saavedra, E. M. García Calvo, A. Montero Méndez, J. C. Pardo Carmona, S. Pérez López, E. Soriano Calvo, C. Tortosa Jiménez, C. Ruiz, F. J. Corpas, J. M. Palma</i> | Pg. 51 |
|---|--------|

NUTRITION AND HEALTH

| | |
|---|--------|
| Internalization of the anti-carcinogenic IBB1, a major Bowman-Birk isoform inhibitor from soybean (<i>Glycine max</i>), in HT29 colon cancer cells. <i>M. Soria, P. Porras, F. J. Moya, N. Sánchez, B. Rodríguez, M. L. Ruiz, J. D. Alché, M. C. Arques, A. J. Castro, A. Clemente</i> | Pg. 59 |
|---|--------|

ENVIRONMENTAL BIOTECHNOLOGY

| | |
|---|--------|
| Use of vermitea for removing pesticides from soil. <i>L. León Rejón, B. García Trigueros, M. Rosales Reyes, C. Soto Paniza, C. Cámara Pérez-Vela, C. Cifuentes, E. Romero, L. Delgado-Moreno</i> | Pg. 69 |
|---|--------|

Winning article of the II EEZ Science Award

| | |
|--|--------|
| The importance of our environment: a qualitative study of water and soil in Iznalloz (Granada, Spain). <i>M. B. Bueno, L. Cuesta, A. Fresneda, J. M. Garrido, C. González, Á. Gutiérrez, P. Morales, M. C. Rivas, M. Ruiz, P. Vilchez, M. Ortiz, C. Plata</i> | Pg. 80 |
|--|--------|
